Studio Cascina Garbald

The Studio Cascina Garbald, in the immediate proximity of the Villa Garbald Seminar Centre, offers scientists and cultural workers a creative space for new ideas. In 2018/2019, the former chestnut drying hut was rebuilt in the context of a Cascina according to plans by Ruinelli Associati Architetti, Soglio.

The interior decoration and furnishings in the Studio Cascina Garbald are reduced to the essentials, while offering modern comfort and contemporary functionality in two spacious rooms and a patio in the Cascina garden.
